[A Primer on Tech 1 - Blockchain*](#) by Wilson Teo
Date & Time: 10th December 2019 11:00 SGT
Blockchain achieved a significant history in 2017 when it pinnacled on tech research firm Gartner's closely-monitored hype cycle, a rating of prospective technologies based on how the market thinks of them and how far they are away from mainstream adoption. In recognizing this status on this technology, Gartner forecasted that blockchain is still 5 to 10 years away from becoming fully adopted.
Goals: (1) to understand the mechanics of blockchain,
　　　 (2) to learn the trends, to learn the multiple applications across sectors,
　　　 (3) to understand its risks, limitations, and challenges, and,
　　　 (4) to learn the future developments.

A Primer on Tech 2 - Artificial Intelligence* by Wilson Teo
Date & Time: 11th December 2019 11:00 SGT
Today, the ambition of launching AI's benefits is motivating the research in many areas, from economics and biology to technical topics such as verification, validity, security, and control. From ALEXA to autonomous cars, AI is innovating rapidly. While movies often depict AI as robots with human-like qualities, AI can embody anything from Google's search algorithms to IBM's Watson to autonomous weapons. The question is whether we understand it.
Goals:(1) to understand the mechanics of AI,
      (2) to learn the trends, to learn the multiple applications across sectors,
      (3) to understand its risks, limitations, and challenges, and,
      (4) to learn the future developments.
