(QS World University Rankings 2023)

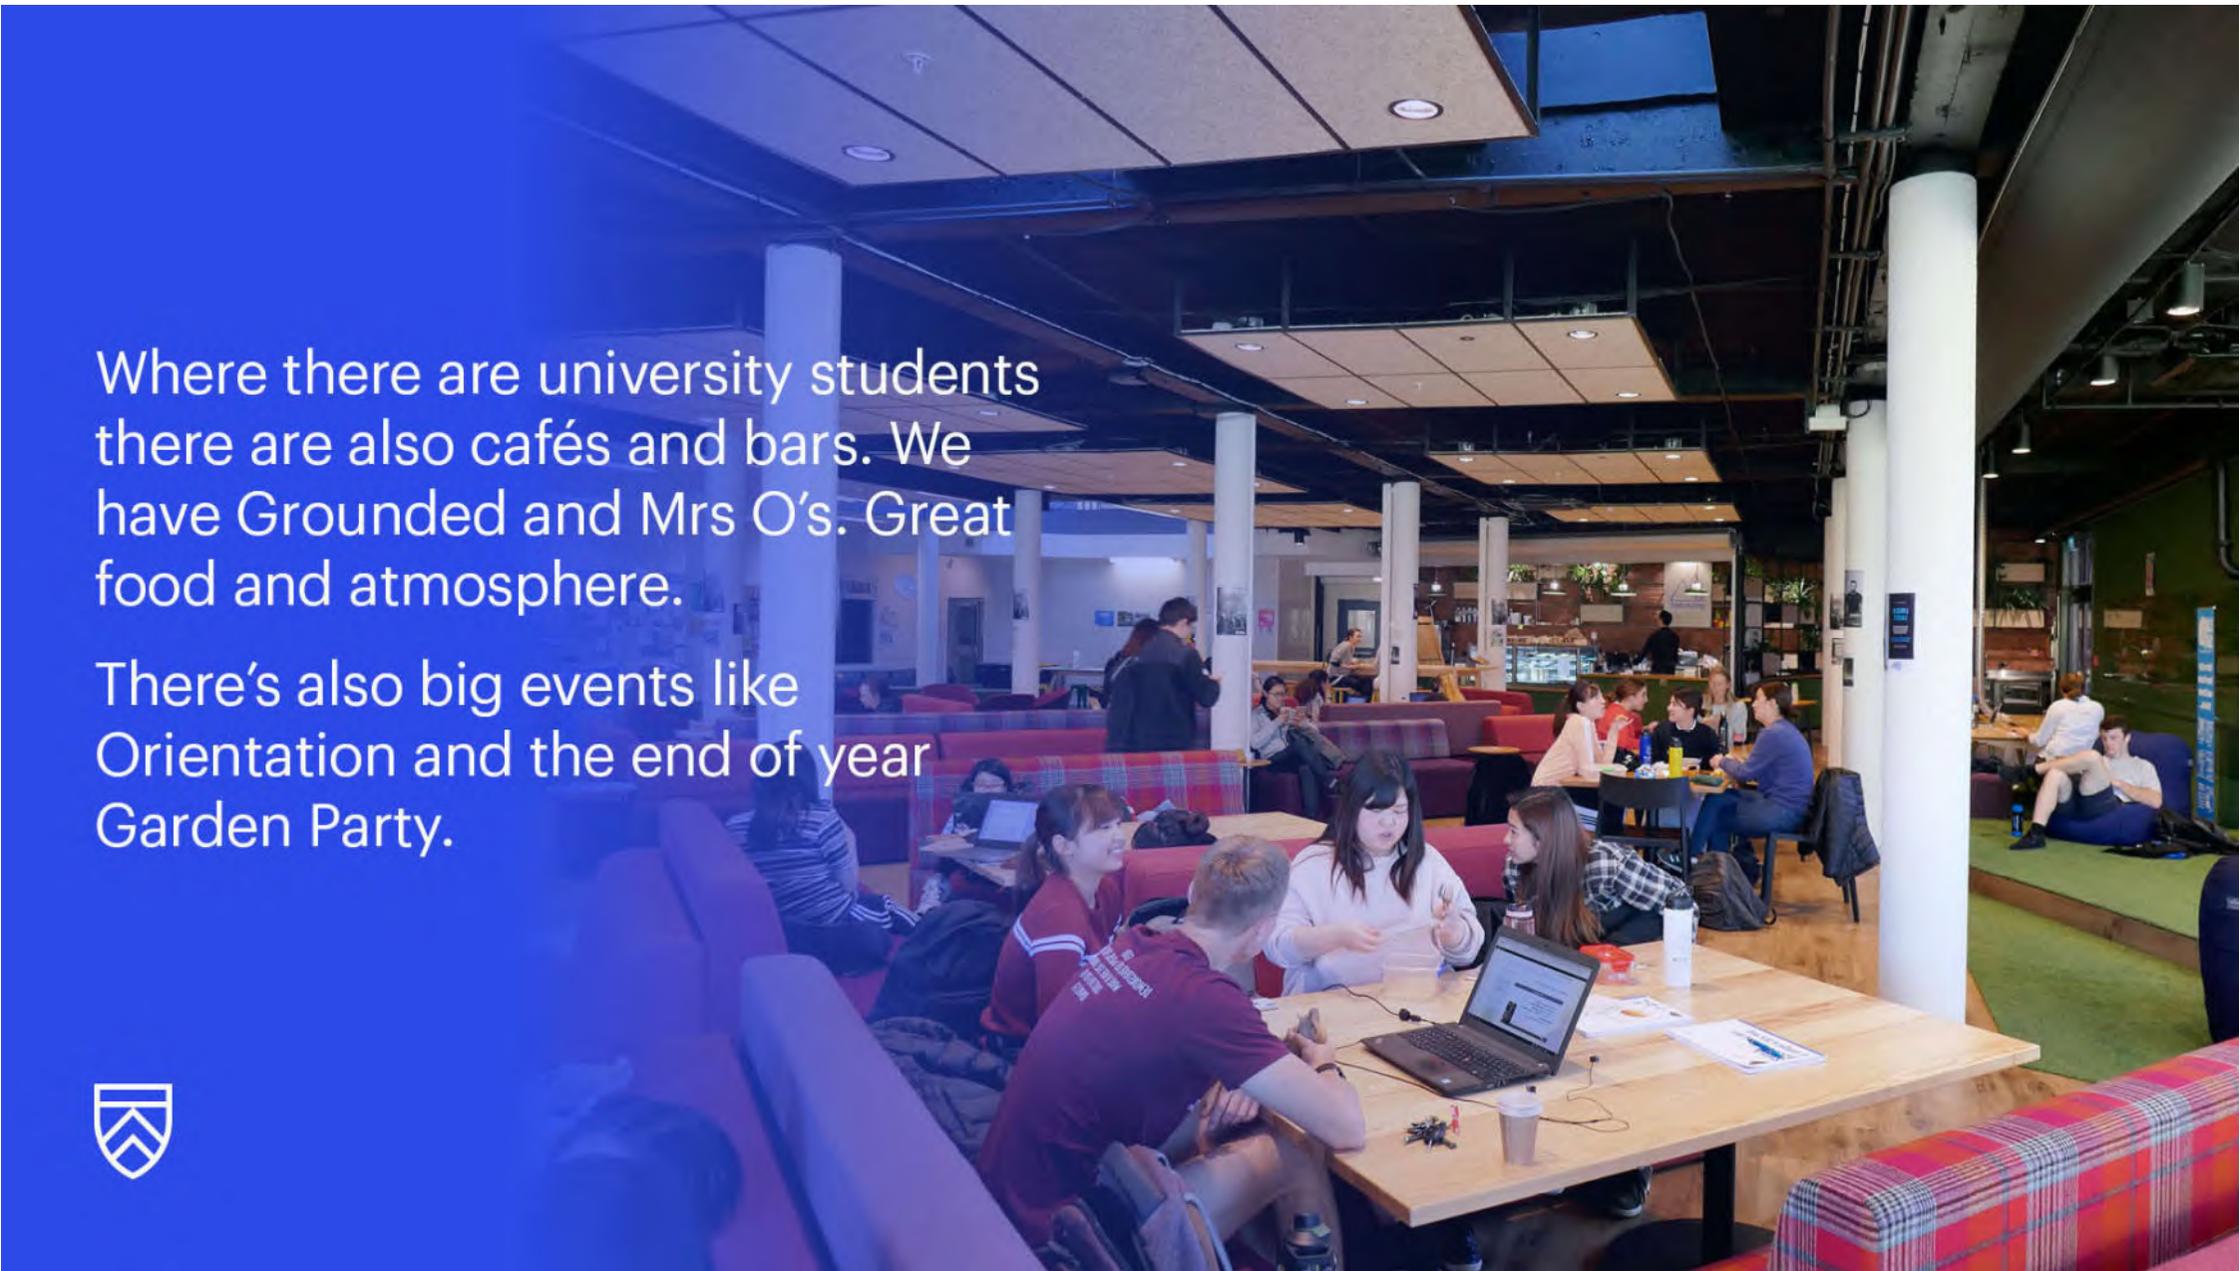

- 
- A photograph of a modern university building interior. The image shows a multi-level atrium with a glass railing on the upper level. Several students are visible on the upper level, some looking at books. On the lower level, a student in a red hoodie is walking towards the camera, and another student with a blue backpack is walking away. The space is well-lit with recessed ceiling lights and features various seating areas, including red sofas and tables. There are also computer workstations and informational displays visible in the background.
- We have advanced teaching spaces, a fantastic library, leading-edge information technology laboratories with 24-hour access, eateries, a printery, world-class sporting facilities, and a fully equipped fitness centre.

Where there are university students there are also cafés and bars. We have Grounded and Mrs O's. Great food and atmosphere.

There's also big events like Orientation and the end of year Garden Party.

International students are well supported at Lincoln.

Our International Student Advisors can help you with any issue or concern you might have. It doesn't matter if it's educational, personal, legal, social, cultural or financial.
